EDITORS CHEONICLE: The closing exercises for the past term of the East Tennessee Wesleyan University have just passed off with the usual eclat. The students and Familia. dents and Faculty are now enjoying a va-cation of one week. Some of the students have taken leave of the town to pass the week with the "loved ones at home," or relations and friends in other places. Almost all these in attendance during last term are going to remain throughout the year, and quite an increase of new students is expected.

is expected.

On Thursday evening after the school closed, the Sunday School of the Methodist Episcopal Church at this place, performed a deed which showed their magnanimity, and should stand as an example for other schools. Rev. J. J. Manker has been Superintendent of this Sunday School for several years. In this position he has worked faithfully, energetically, and successfully. Owing to his appointment by the last Conference to the duties of pastor at Cleveland, Tennessee, and his reception of the same, it became inconvenient and impossible for him to remain longer in the duties of such office. In consequence thereof, and as a tribute of respect and appreciation of his labors the school gave him, on the evening mentioned, a donation party, which was, at the same time, a suron the evening mentioned, a donation party, which was, at the same time, a surprise to him. Early after dark the members of the school began to gather at the residence of Rev. Mr. Manker, and soon filled it to its utmost capacity. The assembly numbered, perhaps, between 75 and 100. After passing a short time in pleasant conversation, the donations, which had been clandestinely passed to the second story of the dwelling, and and consisting of various articles of necessity and value, were carried down and delivered by Rev. D. Hockett with appropriate, interesting, and sometimes humorous remarks. The cash value of the numorous remarks. The cash value of the humorous remarks. The cash value of the donations was perhaps between \$40 and \$50. After this the party were entertained by brief, pointed, and witty remarks by Rev. J. Aibert Hyden, Dr. Cobleigh and others. Then Rev. Mr. Manker was called for, who stated that he could not, by long study in the careful arrangement of words and phrases, express his appreciation of such a manifestation; that he had not studied and labored to merely please the studied and labored to merely please the people and call forth such a demonstration, but that he had tried to do his duty and serve God; and closed by referring to the blessedness of giving. To this Dr. Cob-leigh responded, and directing his remarks to Rev. Mr. Manker, acquitted himself in his usual beautiful and feeling manner.

The crowd were then entertained with music and some refreshments, after which they dispersed—all feeling that the evening had been one of enjoyment, and that it is "more blessed to give than to receive." C. M. M.

Club Rates.

For the purpose of placing the WEEKLY CHRONICLE in the reach of every one, we propose, in the future, to furnish it to clubs at the following rates:

5 copies, one year..... \$8 75 .16 0030 00 And an extra copy for each club of twenty at \$1.50 each.

We will send our daily twelve months to any one sending us a club of forty subscribers for

the year at \$1.50 per copy.

This is a good time to commence canvassing. The holidays are coming and the year is closing. Everybody wants to make holiday presents, and we can conceive of nothing that would be more highly appreciated than a good live newspaper, paid for one year from the first of January, 1871.

nov2-3mSPECIAL NOTICE.

Having for the last thirty-fire years devoted my whole these and attention to the study of lung diesases and consumption, I feel that I understand fully the course that cought to be parened to rection a tologally had east of diseased fungs to healthy soundness. The first and most important steps is for the parient to sweld taking cold, and the best of all places on this continent for this purpose, in winster, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more Northern Intimedes. Flinting is a point I can recommend a good hood in kept there by Patennas. Last continues and my medicinest, were getting will.

One hundred miles further down the river is a point which I would profer to Felatias, as the temperature is more sven and the six dry and bracing. Methoralis and Enterprise are heated there. I should give a decided preference to Mellenville. It is top miles from river erine, and it regues minest impossible to take cold there. The tables in Fiorida might be better, and patients complain at times, but that in a good eign, as it findicates a return of appetite, and when this is the case they generally increase in flesh, and then the lung must heat.

Jacksconville, Hilbermia, Green Cowe, and many other places in warious parts of Florida, can be safely recommended to consumptives in winter. My reasons are then heat the request the property to say that where a consumptive parcon exposs himself to frequent cells he is existent to discharge. Therefore my advice is, go well down into the State—out of the reach of prevailing east whigh and fogs. Lacissonville, or almost any other of the localities I have named, will benefit these who are troubled with a toryled liver, a disordered stomach, deranged bowels, sore throat or cough, but for these whose lungs are diseased a more Scatthern point is amounted to taking cold.

For pilheen years prior to 1602, I was prefereismally in New York, Biston, Baltimow and Philadelphia cvery work, there is a surface of the hu

time, and the proper kind of treatment is pursued. The fact stands undisputed on record that Schauck's Pulmonic Syrap, Mandrake Pills, and Scawced Tonic have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They not on the liver better than calomel, and leave none of its hurtful effects behind. In fact they are excellent in all cases where a purgative medicine is required. If you have partaken too freely of fruit and diarrhon onsees, a dose of the Mandrakes will cure you. If you are subject to sick headache, take a dose of the Mandrakes and they will relieve you in two hours. If you would obviate the effect of a change of water, or the too free includences in fruit, take one of the Mandrakes every night or every other night, and you may then drink water and ent watermelons, nears, apples, plums, peaches er corn, without the risk of being made sick by them. They will protect those who live in damp situations against. Aills and fevers. Try them. They are perfectly harmless. They can do you good only. I have abandoned my profess onal visits to Boaton and New York, but continue to see patients at my office, No. 15 N. SIX TH Street, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged five dollars. The Esspirometer declares the eract condition of the lungs, and patients can readily learn whether they are curable or not. But I desire it distinctly understood that the table of my medicines depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons take my medicines and their systems are brought into a bealthy condition thereby, they are not so liable to take cold, yet no one with diseased lungs can bear a sudden change of atmosphare with
